### Reliability in Wash Materials

Not all wash materials are reliable in weave or dye, as many women have found out to their loss, after wearing inferior weaves for a short while. It is often actual economy to pay a trifle more a yard and get materials that wear well, than to save the difference and have only disappointment instead of service. Our materials are so carefully chosen for quality and the manufacturers who supply us conform so strictly to our high standard that there is absolute safety in buying here. Our guarantee of absolute satisfaction or money back goes with every yard we sell.
